Lightweight Aluminum Hydraulic Vertical Shores

Features and Advantages

CYLINDER PAD

Cylinder Pad has built-in protection of the swivel connection. Others located on the side are subject to being broken by impact.

Proudly Made in the USA

CP-2-CYL-WPRG D-PART

The wiper guide assembly is threaded, not hydraulically pressed in. This is easily adapted to other shores in your fleet.

CP2-CYL-PSTHD

The piston head has a stainless steel insert to attach the piston rod.

CP-2-CYL-WPRG D-SEAL

Wiper guide seals are D-style design so it wipes debris away from the piston rod.

CP-2-CYL-PSTHD-SEAL

Our piston head seals are "O" Ring sealed so at zero PSI the cylinder is sealed.

INNOVATIVE • VERSATILE • TOUGH • DURABLE
